Safety

Cornerstone Mechanical Services partners with high-stakes industries, and our commitment to upholding the highest safety standards allows us to perform our services with care.

- ✓ All field employees are OSHA 10-certified
- ✓ All field supervisors are OSHA 30-certified
- ✓ Internal safety programs include LOTO, confined space and fall protection
- ✓ ISN RAVS-compliant
- ✓ OCIP-compliant
- ✓ Weekly safety meetings

Quality

We treat every project with the precision it deserves, working to meet the specs provided. Drawing on our three decades of experience with OEM manufacturers, we have developed internal procedures to ensure high-quality installation work on your project. From the start of our partnership, we aim to minimize rework and change orders for our scope. During startup, we act as an OEM equivalent and provide test reports for commissioning.
